📁 PROJECTS

ShoeUp ⊡
01/2023 – 05/2023
Github Link ⊡
- This is an ecommerce shoe shopping website built with Next.js, React.js, Redux, and TailwindCSS.
- The website allows users to browse and purchase shoes from a variety of different brands, as well as offering a secure and easy checkout experience.
- The website is designed to be fast and reliable, allowing customers to quickly find the perfect shoes.
- Ultimately, this project provides a safe and secure platform for customers to purchase shoes with confidence

CoinfolioX ⊡
05/2023 – present
Github Link ⊡
Tech Stack : *Reactjs, TailwindCss, ExpressJS*
- Web application for tracking cryptocurrency prices and managing investments
- Features live price updates from cryptocurrency exchanges or APIs
- Allows users to create personalized watchlists and portfolios
- Provides price charts and historical data for analysis
- Offers coin information such as market cap, volume, and circulating supply
