SUMMARY

As a recent graduate with a Bachelor's degree in Computer Science, I have gained valuable experience as a freelance Web Developer. My expertise in using Full stack (MERN) has allowed me to create responsive web applications. Moving forward, I am eager to broaden my horizons in software development and stay up-to-date with the latest technologies.

PROJECTS

ECOMMERCE SHOE STORE | Full Stack
April – June 2023 | Github Link | website Link

•This is an e-commerce shoe-shopping website built with Next.js, React.js, Redux (State Management Library), and TailwindCSS.
•The website allows users to browse and purchase shoes from a variety of different brands, as well as offering a secure and easy checkout experience.
•The website is designed to be fast and reliable, allowing customers to find the perfect shoes quickly.
• Furthermore, Redux and TailwindCSS help to provide a unique and stylish user interface.
•Ultimately, this project provides a safe and secure platform for customers to confidently purchase shoes.
